CERES

The Dwarf Planet Ceres was previously known as the largest Asteroid in the Asteroid Belt which is situated between Mars and Jupiter. It has a diameter of about 950km (590miles) and it is thought to have a rocky core with an icy mantle.

THE MAP SAYS, FOR EARTH YOU TURN RIGHT AT THE ASTEROID BELT!

...BUT THE SIGNPOST SAYS TURN LEFT!

FOR EARTH TURN LEFT

LOST IN SPACE

The Cookie Crunchers

There are ten tins of cookies on two shelves. Which tin of cookies should you eat so that the total amount of cookies will be the same?

6 COOKIES	5 COOKIES	9 COOKIES	3 COOKIES	7 COOKIES
4 COOKIES	6 COOKIES	3 COOKIES	2 COOKIES	8 COOKIES

SANDWICH FILLINGS
MARGE O'REEN

WHY NOT EAT ALL THE COOKIES FROM EACH TIN, THEN THERE WILL BE NO COOKIES ON EACH SHELF?

SOUNDS GOOD TO ME!

GREEDY
